PRESIDENT STUBBS

RESIGNS AS PRESIDENT OF THE UNITED MINE WORKERS

Propose to Fight it Out With Ferne, Socialist Element at Election June 9.

The Saturday issue of the Lethbridge Herald contained the following: Clem Stubbs, president of District No. 18, United Mine Workers of America, has resigned.

An election to fill the vacancy will be held on June 9.

This was the bomb dropped among the members of the miners' union this morning and is the result of a two days' meeting of the executive of the district. While not altogether unexpected, it had been rumored that all the troubles which threatened the union had been smoothed over, and no fireworks were looked for.

The action of the executive officers of the Union in supporting a candidate on the platform of the party which during the last session had granted the miners bi-weekly pay and better control of the inner workings of the mines in the district, and the government which had placed on the statutes a better mining act, has caused such discussion in the coal camps as has never been seen heretofore, even when the miners were in the throes of one of the great strikes which have marked District 18. It is a crisis which will determine what part politics will play in the miners' union in the future.

The trouble goes back to the Miners' Convention held here in February last. At that time a resolution was introduced by Delegate Frank Wheatley, of Banff, to the effect that District No. 18 endorse the platform of the Socialistic party of Canada. The matter was debated briefly, and although some opposed it on the ground that it would not be proper to force the membership to adopt the policy of any political party, the resolution was endorsed with the idea that members should be educated along the lines of Socialism.

When J. O. Jones was nominated by the Trades and Labor Council of Lethbridge in April to contest the seat for this city in the provincial elections, and afterwards endorsed by the Liberal party, a storm of protest arose in several of the larger camps along the line. Homer and Fernie led in this movement, and to create defection among the miners in the local camps the Pass camps had resolutions published broadcast opposing the action of Jones. Socialistic camps at Fernie and Homer subscribed funds toward the candidacy of J. R. Knight, and it soon became evident that the miners here were divided on the question. Later a Board meeting was held at Coleman when the executive officers threshed the matter out, but no unanimous decision was arrived at. It is understood that President Stubbs at that time offered to resign and contest the election to vindicate his position in supporting Jones in his candidacy.

When the Board meeting here convened on Wednesday morning everything appeared to have been smoothed over. But there was present J. W. Gray of Fernie, who had been sent down by the Socialist party at Fernie to fight against Jones during the election, and between himself and Stubbs there were some warm passes during the last two days. It was Gray's opposition to letting the matter rest that precipitated the present break.

President Stubbs will contest the election on June 9. If Jones and Carter are recalled they also will contest their respective positions. It is learned by the Herald on good authority that Smith, of Fernie, will oppose Stubbs, while J. W. Gray will oppose Jones. The result of the election will decide for some time whether the labor movement in the Pass is a Socialist or a Labor union movement.

Will Reside in Coleman

W. B. Powell, former president of District 18 U. M. W. of A. and since its completion last summer superintendent in charge of the mine rescue station at Lethbridge, has been promoted to the superintendency of the mine rescue car now stationed at Coleman. The car will be moved from point to point in this mining division, with a view to giving instructions in mine rescue work at each of the mines. Mr. and Mrs. Powell will make their home in Coleman as soon as a suitable house can be secured.

Wanted: One large or two small complete furnished rooms for light house-keeping. Apply at this office.

MINERS RESUME WORK

After being out four days, the miners employed by the International Coal & Coke company, resumed work Tuesday morning.

Frank Aspinall, provincial mine inspector, inspected the mines last Wednesday and pronounced them in thorough order. The officials of the Miners' Union, however, were not entirely satisfied with Mr. Aspinall's report and wired for John F. Stirling, chief inspector. Mr. Stirling arrived in town Saturday night and made a thorough inspection Sunday. He endorsed Mr. Aspinall's report, supplementing it with the statement that the international miners were in the best shape of any coal mines in the province.

THAT BUSINESS TAX

THE PROPOSITION TURNED DOWN FOR THE PRES- ENT

But Will Come up Again. Town Council Have Busy Session—Transact Considerable Business.

A regular session of the town council was held in the council chambers Tuesday night.

Present: Mayor Oumette, Councilmen Holmes, Goodeve, Gate, Swann and Neil.

After routine business, a batch of communications were read by Secretary-Treasurer Emerson.

In reference to the communication from the United Municipalities of Alberta calling the attention of the council to the desirability of affiliation with that body, and stating the annual fee for the same, it was moved by Goodeve-Gates that the secretary-treasurer be instructed to forward the necessary fee of \$10.00.

J. H. Spaulding, a photographer of Fernie, B. C., laid a proposition before the council in which he stated it was his intention to make a motor trip from coast to coast and write up a set of books descriptive of the trip. He proposed to devote pages to Coleman, its commercial advantages, salubrious climate, pure water, scenery, etc., for the small pittance of \$150.00, the council to furnish the writup and pay \$75 down, balance when books were printed. Notwithstanding the liberality of the offer, the councilmen unanimously rejected the proposal to the files.

Several fire hose concerns submitted prices on 600 feet of new fire hose, one firm sending along samples. Moved by Gate-Neil that the fire chief be instructed to make a thorough test of the fire hose on hand to determine how much new hose was needed and report at next meeting.

The Italian Society of Coleman made application for the use of Flumfeldt park to hold sports on May 24th.

A recess was taken while the councilmen discussed the fee to be charged for use of the park by athletic clubs and societies. A couple of resolutions were drafted but so many councilmen were suggested that it was deemed wise to defer action until next meeting.

Moved by Gates-Holmes that the secretary-treasurer be instructed to notify the Italian Society that the cost would be ten bucks for the use of the park on the 24th of May.

Moved by Gate-Swann that the mayor and the members of the board of works draw up a resolution governing the fees to be charged for use of park.

On motion of Goodeve-Swann the report of Secretary-Treasurer Emerson was adopted.

Moved by Neil-Holmes that the report of Chief of Police Ford be adopted.

Fire chief Graham submitted his monthly report, in which he called attention to inflammable materials in the entrance to the hall used by the Italian Society and pointed out the danger from fire if a match was carelessly dropped in the rubbish. On motion of Swann-Gate the report was adopted, and the chief of police notified to have the matter referred to attended to.

The monthly bills were passed and ordered paid.

The services of a janitor for the fire hall was dispensed with, the weather clerk having guaranteed a warm wave soon.

The question of imposing a business tax on all business and professional men, those paying licenses alone being excepted, called for a lengthy discussion—and a warm one.

Gate-Holmes moved that the council (Continued on page 8)

ANNUAL MEETING

COLEMAN BOARD OF TRADE MONDAY NIGHT

Officers Elected for Ensuing Year and Plans of Publicity Decided Upon

The annual meeting of the Coleman Board of Trade was held in the town hall Monday night. The meeting was very successful and an important one. The secretary's file was cleared of an accumulation of correspondence and plans outlined for a vigorous campaign, having for its object putting "Coleman on the map" in the outside world.

The following officers were elected: President—E. Disney. First vice-president—J. Scott. Second vice-president—T. W. Davies. Secretary—C. P. Willmott. Treasurer—A. Cameron.

Executive committee—Above named officers and W. L. Oumette, H. C. Goodeve, O. E. H. Whiteside and A. M. Morrison.

The needs of a lawyer and a milliner—not necessarily partners—in Coleman was discussed and President Disney, W. L. Oumette and Secretary Willmott named as a committee to

draft an attractive advertisement to be inserted in the Winnipeg Free Press calling attention to the excellent field for those two lines of business here.

After some discussion it was deemed advisable to prepare a folder with cuts of the principal business and private residences in the town, along with a crisp, right-out from the shoulder description of the many advantages of Coleman as a business and residential centre. Messrs. Oumette, Goodeve and Stanley were named as a committee to prepare said folder and submit it to the Board at a special meeting to be called for that purpose. It is the intention to have enough of the folders printed that every one in town can obtain a supply and enclose them in letters to friends in the east.

Fishing Licenses

A supply of fishing licenses was received at the B. N. W. M. P. barracks yesterday, and disciples of Isaac Walton may now indulge in their favorite pastime by first securing a license.

100 Men Out at Bellevue

No. 1 seam of the coal mine at Bellevue was closed Wednesday on account of dangerous conditions of the mine and 100 men are out of work.

COLEMAN, ALTA., MAY 9, 1935

VERSATILE MAN MORE DESIRABLE THAN THE SPECIALIST

The want of versatility in most modern men of equipment and ability is a detriment to culture and the men's widest social usefulness. The vogue of specialization works mischief in the scale of society, whatever gains in individual efficiency and the increase of knowledge it may bring in the scale of the single human unit. A great need of the world's work today is a multiplication of such versatile workers as William Morris of England, and such encyclopedic scientists as Humboldt of Germany.

"Beware of the man of one book" is a sagacious principle that should be set beside the wise advice against "the Jack of all trades and master of none." The specialist is necessary, but the versatile man is equally needed. The specialist is the chisel with which the marble is hewn, but the versatile man is the hand that wields chisel or brush alike with easy mastery and carves the statue or paints the picture.

The specialist knows the facts of his subject, but mere knowledge of facts is not enough. There must be knowledge, also, of relations between facts, acquaintance with the theories and principles that unify masses of facts into systems of thought and make them serviceable to society at large. Here is where the versatile man has the advantage and becomes a social asset. His interest in life is so keen, he is interested in so many of the works and activities of men, that he instinctively selects the important facts in a wide range of human interests, links those that have vital affinities with one another and pushes through to principles that society needs to have applied in order to reach its richest development.

Mr. Roosevelt affords a fine instance of the versatile man's value to the community. He disclaims being a specialist in any subject or having complete knowledge of any, as Professor Loeb claims to have of parthenogenesis. But Mr. Roosevelt's knowledge in any field that interests him, as in the parallel case of Gladstone, is accurate so far as it extends and has a splendid faculty of weaving itself into a vital unity with all his other knowledge. This enables him to bring the whole force of all his many learnings on any one point he touches, and thus deepens as well as broadens the effectiveness of his service to society in many widely sundered spheres of effort.

THE ANGEL THAT STIRS THE WATERS OF LIFE

Enthusiasm is a dynamo of human energy. Without it no great achievement is often wrought out of the stuff of life and character in interaction. It is no mere explosion of a moment's or a month's intense application of force. It is the strongly, but steadily, burning fire of some central sun of concentrated effort on a lofty purpose.

The man or woman without enthusiasm is to be pitied. Still more is the youth or maid. The former may have lost enthusiasm through the stress of cir-

cumstance or the deadening pressure of failure. But the latter lacks an impelling power, a spring of action, a source of joy and growth without which life is too likely to become stale and unprofitable.

Victor Cherbuliez, a French novelist, shrewdly if somewhat cynically gave youth this bit of good advice:

"My son, we should lay up a stock of absurd enthusiasms in youth, else we shall reach our journey's end with an empty heart, for we lose many enthusiasms of our road."

If the advice have a dash of quixotism it is none the less valid and serviceable, for it sets youth's aim at a high ideal and every ideal has a touch of that romance whose extremes result in Don Quixotes.

Enthusiasm is the spirit that helps us to take life as a game or adventure and enter into it with joyous heartiness. It is the immortal youth that finds art of living. So long as enthusiasm dwells with a man he is young, though the snows of 80 winters have whitened his head. The same enthusiasm, the practical idealist, knows that right life is glad as well as just "and bears aloft the banner gay and zephyr-tossed of 'This I May.'"

Enthusiasm is one of the forces that create "grand old men," but chiefly because they were enthusiastic young men with hearts enkindled, minds enlarged and wills tempered to the strength of steel through devotion to some enthusiasm or other of humanity. Enthusiasm for truth seized Plato and made him the father of European thought. Enthusiasm for Christ seized Paul and made him the founder of Christian theology. Enthusiasm for beauty mastered Angelo and made him the creator of modern art. Enthusiasm for humanity dominated Lincoln and made him the apostle of American democracy.

PRINTING ADVANCES, TOO

Office help costs 50 per cent more than five years ago, living has advanced 25 to 50 per cent in the same time. Eggs were sold at 8 to 12 cents, butter 12 to 20 cents, chickens 25 to 50c a pair, potatoes 15 to 20c a bushel, apples 75c to \$1.25 a barrel, beef from 6 to 12c a pound. Servant girls received \$4 to \$7 a month and so on. Now citizens have to pay about double these prices and in some instances more. The reasonable solution to this condition is that higher prices might be charged for what we have to sell. In the publishing and printing business we sell three things—papers, advertising space and printing. Wholesale paper dealers have all notified customers of advance in prices, so ordinarily weekly newspapers cannot longer be profitably published at one dollar a year. This has long been known to publishers themselves and some of them have advanced the subscription price to \$1.25 and \$1.50 a year. Advertising space must also be charged at higher rates. It actually costs as much to set the type and look after the advertising in many papers as they receive for the space. We have already raised rates this year but from the way expense of labor and paper are advancing now, further increase in rates must be made to do business at a living profit. Printing is the product of skilled labor and costly stock, and as both have materially increased the printer's prices must go up correspondingly. No one is so small as to expect another person to work without profit and board himself. We must all live and let live, so the newspaper man must charge higher prices from this time onward or eventually go under.—Bowmanville Press.

Commercial Printing, high in quality, low in price. Bulletin.

GOOD PERCENTAGE

OF ATTENDANCE AT COLEMAN PUBLIC SCHOOL

School Trustees Well Pleased with the Progress of the School Under Present Staff

At the regular session of the school board, held Wednesday night, President Cameron, Trustees Hyslop, Pizer and Haysom answered the roll call.

Moved by Hyslop-Pizer that minutes of last previous meetings be adopted as read.

Hyslop-Haysom that the action of the management committee in opening the new room in the school and engaging a teacher for same be endorsed.

The report of Principal Mitchell conveyed the pleasing information that nearly 300 pupils were enrolled and the percentage of attendance was over ninety. At the weekly fire drill the school is emptied and the pupils resume their places at their desks in the short space of two minutes.

On motion of Hyslop-Haysom, the principal's report was accepted and certain supplies and requisites asked for referred to the property and management committees.

Trustee Hyslop desired to go on record as being entirely satisfied with the work of Janitor Stokes. He had made frequent visits to the school and invariably found the building clean, neat and tidy and the janitor up to the mark in his work.

Trustee Hyslop's remarks along above lines were heartily endorsed by the other members of the Board.

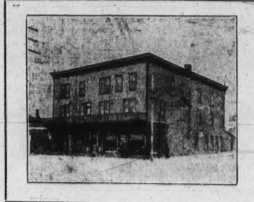

Reports from the various members of the teaching staff, also the secretary treasurer were read and accepted.

After correspondence had received attention, there was a short discussion regarding the congestion in the school. Trustee Pizer announced that, in his opinion, it was only a matter of time when a separate school would be situated here. President Cameron thought now was the time to secure a site upon which to build a ward school, as it was imperative that such a building should be erected in the very near future.

After passing of the monthly accounts and some further discussion the Board adjourned.

Synopsis Of Coal Mining Regulations

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon territory, and the North-West Territories and in a portion of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant.

A application for a lease must be made by the applicant in person to the agent or sub-agent of the district in which the rights applied for are situated.

Each application must be accompanied by a fee of \$10 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn reports accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the workings of the mine at the rate of \$10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

W. W. COPE, Deputy Minister of the Interior.

MASQUERADE BALL

BY THE HILLCREST FOOT-
BALL CLUB

Visitors present from Many of
the Towns, and Fine List of
Prizes Awarded

The second entertainment given by the Hillcrest Football club was held on Wednesday evening, April 30th, and proved to be as great a success as was the basket social given by the club late last winter. On this occasion the club gave a masquerade ball, the committee being of the opinion that this would show the club's appreciation of the assistance given by the ladies of the town at the time of the basket social. There were some thirty couples in costume, which made just the right sized crowd for the available dancing space. For the first time in the history of Hillcrest a large number of visitors from neighboring towns were present. Blairmore, Frank, Bellevue, Ponchartraine and Brantford all represented, many of these visitors being in costume. Several Blairmore gentlemen, who until the end of the season will be "our friends, the enemy" in football circles, attended dressed in their playing suits, and the yellow and black shirts showed up well among the vari-colored dresses of the other visitors. Before the ball opened William Barnes, dressed as a clown, took possession of the floor, and made a great hit with the audience by the way in which he acted, filling the part for which he was dressed to a nicety. The "Comic Policeman" also did some good stunts, his attempts at keeping the clown, a coon and a gentleman, dressed in the national colors, in order, being ludicrous in the extreme.

As two of the judges did not turn out, F. J. Smith was asked to officiate in this capacity, he with J. S. Quigley choosing a third judge, Thos. Taylor. It took the three of them some considerable time to arrive at suitable decisions, so many of the competitors being entitled to consideration. Their decisions awarded the first prize for the most original dress among the ladies to Mrs. Wm. Ryan, the second prize for the dress most suitable for the occasion going to Miss Keil. This second prize among the ladies was advertised as being for the most comic dress, but as there was not a lady present dressed as a comic character the judges awarded the prize as above. Among the gentlemen, Sam Charlton took the prize for the most beautiful masquerade costume, and "Ketchup Charlie" the coon, the prize for the best comic costume. The prizes, which for a week previous had been on display in the Co-Operative Store's window, consisted of the following: An ebony backed toilet set for the first ladies' prize; a silver plated fern pot for the second; a solid brass pipe rack for the first gent's; and a bottle of Helme best catnip for the most comic gent's.

The masqueraders unmasked at 12:30 and a light lunch was served, after which the floor was cleared and all joined in the dancing until 1:30 on May-day morning. The thanks of the club are due the Hillcrest orchestra for the classy music they put up, the general opinion of the bunch being that on this occasion they supplied the best music that has been heard at any dance in this locality, and that

Brantwell Booth to Come
Toronto.—Brantwell Booth will make his first visit to Canada as commander in charge of the Salvation Army next fall, arriving here about November 1st. He will hold meetings in all important Salvation Army centres, with a special tour of Ontario, and make extensive inspection of the Canadian west with a view to more rapid immigration settlement. He will open new social working buildings at Port William, Winnipeg and Calgary.

Australia Gives \$10,000

Sydney, N.S.W.—The Federal Government has decided to make a contribution of \$10,000 to the Scott Memorial Fund. The Prime Minister has received a letter from Commander Evans of the Terra Nova intimating the fact that it is the intention of members of the expedition to present the Commonwealth Government with complete records and publications of the expedition, including the history of the expedition written in Scott's own words.

To Meet Hon. G. E. Foster
Sydney, N.S.W.—Andrew Fisher, Premier of Australia, and the New Zealand Minister of Customs will meet the Canadian representative at the conference on trade reciprocity which takes place in Australia. A reciprocal agreement should be reached to both countries.

MINE RESCUE CAR

(Continued from page 8)

purposes, and it is hoped that the training will be started by next Monday. A number of teams will be trained from the International mine, then the car will be moved to the McGillivray mine for similar work. The car will be permanently stationed in the Pass and will be moved at stated periods from Coleman as far east as Brantford.

The car is in charge of W. B. Powell, veteran miner, superintendent and expert in mine rescue work. One of the coke ovens will be placed at Mr. Powell's disposal and will be used for practical tests as well as the mine and mountain slides.

The mine rescue car is now in operation and any person desiring training in mine rescue work should apply to the Mine Manager at the mine office, who will make the necessary arrangements.

TO SPEND MILLION

Thousands of Which to go to Dominion Parks.

Edmonton, Alta.—Seventy thousand dollars for improvements to Jasper Park, three hundred thousand dollars for improvements to Rocky Mountain Park, Banff Glacier and Yoho Park, twenty-five thousand for the construction of a motor road from Kananaskis to Banff, twenty-five thousand for developments in Buffalo Park, Watrous, and fifteen thousand for similar work at Waterton Lake Park.

The foregoing figures, exclusive of the new bath house at Banff, represent the amount to be expended on Dominion Parks during the coming year. Besides these amounts, the Grand Trunk Pacific will construct a tourist hotel which will cost in the neighborhood of three-quarters of a million. It will be located at the Miette Hot Springs.

To Develop Coal Areas

Regina.—Hand in hand with the investigation into the practicability of diverting the water supply in the South Saskatchewan river is also to be instituted an investigation into the feasibility of generating power at the coal mines in Southern Saskatchewan and its distribution into the various centres of the province is also to be considered.

This work has been placed in the charge of A. J. McPherson, who has already arranged with S. M. Darling to install a test carbonizing plant at Regina to try out a special method of treating the lignite coal to make it suitable for commercial purposes.

The scheme under way is to provide a means whereby this coal can be put on the market to meet competition of the coal from various other sources of supply. If the test proves successful, and Mr. McPherson has every hope that it will, it will be the means of developing the large resources in the way of low grade coal now existing throughout a large part of Saskatchewan. This work is an extension of the findings of the investigation made last year by H. Wynne-Roberts, and about the lines which were indicated to be most probably successful.

DOUBT BRITISH SUCCESS

U.S. Experts and Aeroplane Superiority in Britain's Army

Washington.—Aeroplane experts in the War and Navy Departments have scouted the idea that the British army has evolved a flying machine superior to any in the possession of other nations, as announced in the House of Commons by Colonel Seely, British Secretary of State for War. Captain Irvin Chambers, of the Bureau of Navigation of the Navy Department, was inclined to accord aeroplane honors to the French army experts. Officers in the signal corps of the army also expressed grave doubt that the British experts had made any revolutionary discoveries.

CHURCH AND STAGE

Prot-st Against Cramming Food Into British Suffragettes

London.—At a big public meeting here strong public protests were registered against the forcible feeding of imprisoned suffragettes. The Bishop of Lincoln, who presided, declared that the suffrage movement was a grand demonstration of moral force against brute force.

Forbes Robertson, the actor-manager, asserted that forcible feeding would not be permitted in America.

George Bernard Shaw said it was illegal, but that Reginald McKenna, the Home Secretary, proposed to legalize it by act of parliament.

WEST IMPORTS STOCK

Decay of Ranching Exemplified by Considerable Imports

Moose Jaw, Sask.—As further evidence to the decay of ranching in western Canada, J. D. Watson, representing J. A. Mcintosh of Great Falls, Mont., has arrived here with 250 head of stock which he brought up from eastern Canada. Previously this year he brought three hundred head to Western Canada from Montana and says there is another thousand head on order to supply the demand of packers and farmers. This year, he brought 10 train loads of stock to help populate the farms and ranches of Alberta and Saskatchewan.

LOCAL AND DISTRICT HAPPENINGS

Events of Interest to Coleman People Garnered During the Week and Presented in Readable Form

If I have faltered more or less
In my great task of happiness;
If I have moved among my race
And shown no glorious morning face;
If beams from happy human eyes
Have moved me not; if morning skies,
Books and my food, and summer rain,
Knocked on my sudden heart in vain,
Lord, thy most related pleasure take,
And stab my spirit broad awake.

—Robert Louis Stevenson.

W. F. McNeil, of Camrose, Sundayed in town.

Ask "Roughly" about those new shoes.

Today is Arbor Day in the Province of Alberta.

Fred Aspinall, mine inspector, of Lethbridge, spent Sunday here.

The Stokes' orchestra will furnish the music at the dance tonight.

E. J. Marino, of Blairmore, is thinking seriously of moving his family to Coleman.

Stokes Orchestra goes to Herculot every Saturday to play for dances in that town.

A freight wreck east of Crow's Nest last Saturday held up passenger traffic for a few hours.

Automobile traffic through the Pass has been commenced, two parties being here the first of the week who were westward bound.

Over three hundred pupils were registered at the public school this week, and the accommodation of the night rooms is taxed to overflowing.

John F. Stirling, provincial mine inspector, came up from Edmonton Saturday night and inspected the International mines Saturday night and Sunday.

The first kick from the football field was registered at Blairmore last Saturday when the Bellevue team walloped the Blairmore players over the gridiron to the tune of 8-0.

J. C. Jones, of Lethbridge, vice-president of District 18 U. M. W. of A., was in town the first of the week in connection with the dispute between the miners and the mine owners.

Dance in the opera house tonight. The committee in charge of the affair are noted for giving the best dances in the Pass and all who attend are assured of their money's worth—and then some.

Some Coleman citizens have been subpoenaed to attend court at Fernie, B. C., next Monday to give evidence for the prosecution in the case of the Crown vs. the Anglo-Canadian Trust and Savings grantees.

Coleman boasts a thoroughly cosmopolitan population, as was evidenced Monday in the Bank of Commerce when drafts were being purchased at the same time for payment in Italy, China and Norway.

FOR SALE—Rose Combed Rhode Island eggs, for hatching, \$2.75 per setting of 11 eggs from first-class laying strain. Government experimental farms recommend them as the best for the West. Joe Stephenson, P. O. box 61, Coleman, Alta.

Bellevue and Coleman football teams will try conclusions on the local gridiron tomorrow. This ought to be a good game, as the visitors come flushed with their victory over Blairmore last Saturday and the locals are determined not to let them put anything like that over them.

The presence of Alexander McCusky, a coal miner, is urgently needed at his home in Elean, Alta. His father was seriously injured in the mine at Elean, and is anxiously awaiting tidings of his son's whereabouts. Any one knowing of Alexander McCusky's present location will confer a favor by informing him of his father's condition.

Saturday's issue of the Nelson News contains the following: "Fred Harris, manager of the 11 Meat Market branch in Nelson, was presented with a bouquet by some of his admirers at the Starland theatre last night, when his fine baritone voice was displayed to great advantage in several songs. Mr. Harris would have been presented with floral offerings here on several occasions but for the fact that flowers were out of season at the time."

A Saudino, the Italian who attempted suicide by firing two bullets into his breast on the 3rd of April, and who has since been confined in the Miner's hospital, was brought up before Magistrate A. M. Morrison last Saturday on a charge of attempting to take his own life and committed to stand trial at the next court of competent jurisdiction in Macleod. Bail was accepted in the sum of \$500, Mark Sartoris and A. Saudino going on the bond.

Sunny Southern Alberta received a wetting yesterday.

Inspector Belcher was up from Pincher Creek yesterday.

H. G. Goodeve made a business trip to Frank yesterday.

Today, Arbor Day, is a holiday in the public schools and the bank.

The cold weather of the past few days has been a damper on tennis enthusiasm.

Mr. and Mrs. V. Lowden are rejoicing over the arrival of a baby girl at their home.

Mr. C. H. Wycherley, of Passburg, will preach in the Institutional church next Sabbath.

George A. Clair reached town, with his new Ford car last night, driving it up from Calgary.

Turn out to the football game tomorrow afternoon and boost for the home team. Leave the kicking to the players.

A clean-up propaganda has been issued by the medical health officer, and may be found in another column in this issue.

The hospital was reported empty this week. It is a source of gratification that there have been very few accidents of late.

H. A. Parks, of Winnipeg, was in town yesterday. Mr. Parks was formerly proprietor of the Coleman drug store and has many warm friends here.

"The Palace of Flames" a superb production, will be the attraction at the Rex Theatre next Tuesday night. Don't miss seeing this as it is one of the best on the road.

Dr. Fawcett has been making the towns down the line this week, devoting one afternoon to each town and ministering to those suffering from diseased molars.

Services at St. Alban's church next Sunday, Whit Sunday; 8 a. m., holy communion; 10:30 a. m., matins and holy communion; 3 p. m., children's service and baptism; 7 p. m., evensong and sermon.

F. H. Williams, F. Millett and D. James arrived in town Monday night from South Wales. The latter gentleman is a brother of Henry James of the town. The new arrivals expect to secure work in the local coal mines.

The H. G. Goodeve company received a shipment the first of this week of carpet squares and rugs direct from London, England. This is one of the finest importations of this line of goods ever received in Coleman.

Rev. T. Murray goes to Passburg for communion and baptism services on Sunday. He will remain over Monday and deliver his illustrated lecture on Scotland in the evening, proceeds in aid of the Ladies' auxiliary of Passburg.

Editor Bartlett was up from Blairmore Monday night and, in the excitement of drinking an "ice cream soda" swallowed his gum. Moral: Always take your chew out of your mouth before indulging in liquid refreshments.

George Clair left Monday for Calgary to drive his new Ford car down from that city. F. A. Robbins, of Blairmore, accompanied him to do the chauffeur act and, incidentally, give George a few lessons in the art of steering the critter.

The police have been looking for John R. Palmer, the Lethbridge diary for the past couple of days. It seems that John has been indicted in the Lethbridge district, by his better half, but the hotel men in this district were not notified. Palmer has been in the Pass for several days, looking deep into the beer and kindred cups when they foamed and sparkled and subjecting the hotel men of this district to a fine and loss of license. When rounded up the noted attorney will doubtless draw down a fine of \$50.00 and costs.

NOTICE TO BULLETIN PATRONS

Familial affairs necessitating a brief trip back east, the services of Mr. W. M. Jones, a newspaper man of wide experience, has been secured to "run the Bulletin" for the next few weeks. You will find Mr. Jones "there with the goods" and I feel perfectly assured that he will receive the same courtesy and consideration from Bulletin patrons and readers that has been extended to me during the past year.

All accounts due the paper for advertising and printing will be payable to Mr. Jones, who is hereby authorized to collect and receipt for same.

Yours very truly,

W. F. STANLEY.

Are you "square" with the Bulletin?

PUPILS' STANDING

IN THE COLEMAN PUBLIC SCHOOL

Three Hundred Pupils Enrolled and Eight Teachers Now Employed, School Still Crowded.

The following is the standing of the pupils in the Coleman Public school for the month of April, the names being arranged in order of merit:

GRADE IX
Catherine Disney, Vivian Keith.

GRADE IX
Harold Clark, Adam Dunsmore.

GRADE VIII
Ellen Vuori, Mary Lacoste, Harold Keith, Jules Gerin, James Williams, Mauri Vuori, Edwin Neil, Lillian Johnson, Maud Grafton, George Grafton.

GRADE VI
Lillian Howe, Irene Pelletier, Ears Ostander, Sydney Smith, Denise Manfort, Harold Johnson, Gladys Crawford.

GRADE V
Helen Porter, Fred Antrobus, Helen Kohout, Leon Fanville, Gladys Lees, Eva Destobel, George Ford, Thos. Parry, Edward Le Gal, Lizzie Gillespie, Sophie Kresy, Inez Dunlop, Olga Walholm, Skyla Neil, Erve Lacoste, Katie Steele, Edward Stonehouse, John Graham, Mary Bell, Carrie Machin, Gules, Aloffe.

GRADE IV
Fred Lees, Helen Morris, Elsa Disney, Emilie Pelletier, Beatrice Stokes, George Duns, Albert Mowley, Ethel Morris, Adolph Williams, Grace Hadfield, Coline Ledien, Peter Kelly, Joseph Gate, Fred Eyzackers, Alex Chalmers, Lavinia Cox, Mike Gristack.

GRADE III, (SENIOR)
Phenias Fraser, Levite Levasseur, Robert Young, Annie Suronen, Anna Neil, Christina Leary, Helen Malcolm, Gordon Ross, William Johnston, Sarah Young, Ubald Lacoste, Charles Blachut, Herbert Perdue, Lizzie Harris, Mary Kohout, May Cox, George Joseph, Wallace Johnson, Lottie Eacott.

GRADE III, (JUNIOR)
Norman Arth, Jane Apponah, Albert Phochorka, Margarete Larrigan, Ethel Honanack, John Neil, Theresa Henri, Carlyle Machin, Henry Plasmidro, Willie Bell, Mary Kilgannon, Emilien Henri, Elizabeth Hadfield, Hector Bonenars.

SENIOR CLASS II
Rosie Blachut, Raymond Brassens, Lizzie Mitchell, Nannie Gillespie, Jane Boyce, Dorothy Graham, May Machin, Alex Mayson, Rhoda Antrobus, Henry Cloes, Joseph Bowman, Rosie Andros, James Brennan, George Andros, Anil Stalman, John Milley, Albert Hall, Loreta Lacoste.

GRADE II, (SENIOR CLASS)
Alec Morris, Alec Bokup, Elsa Leaf, John Thompson, Willie Ford, Nilo Apponah, Mike Pidlak, Hilda Perdue, Anil Prochaska, Josephine Eyzackers, Maria Van Den Dries, Henry Eyzackers, Jean Dunsmore, Elizabeth Krigo, Lyzyl Walholm, Leonard Sherratt, Joe Kipka, Willie Cox, Leo Field Stalman, Anna Van Den Dries, James Crawford, Anton Biele, Stanley Smith, Joshua Grafton, George Larrigan.

GRADE II, (JUNIOR CLASS)
Nettie Graham, Sarah McKean, Verna McDonald, Jeanne Dab, Edith Hayson, Lellie Hubbard, Harold Magge, Clara Ware, Mary Bokup, Steve Machin, George Setvans, Steve Blachut, Katie Romanak, Alvin Milley, Muriel James, Denise Shiry, Mary Ledien.

GRADE I, (SENIOR)
Maurice Goodeve, Sidney White, Hubert Clarke, Vincent Zigan, Frank Zigan, James Evans, Janetia Lovens, Tony Poudack, Edwin McKean, Seymour Lober, David Denholm, Barbara Kubone, Joseph Vorba, Jack Stokes, Clarence Crawford, Annie Gate, Choo Yuen, Robert Bell, Alice Smith, Ludwick Stovelak, Annie Kovack, Samuel Hadfield, James Frazier, William Glenndening, James Young, Laura Bressour, John Leary, Moses McKieken, William Morgan.

GRADE I, (JUNIOR)
Harold Willmott, Elsie Hayson, May Muir, Eileen Magge, Marie Lou, Sophia Grafton, Verna Lloyd, Victor Murray, Roberta Brennan, Joseph Lawrence, John York, Wylie Poga, Katherine Hubbard, Steve Andros, Edna Grevent, Frances Wilsa, Marie Gillespie, Wilfrid Thompson.

PRIMARY GRADE
Mary Lauren, Roy Ash, Dorothy Mitchell, Eddie Jagoss, Nathanael Hadfield, Minnie Chalmers, Noel Locoge, Harry Antrobus, Joe Zagan, Andrew Bokup, Maggie McKieken, Mary Joy, May Smith, Mary Bowman, Joseph Pittack, Sammy Yoke, Michael Kipka, Francis Van Den Dries, Jimmie Duns, Joe Fanville, Frank Prochaska, Angus Manfort, Joseph Janak, Joseph Adomeck, Mary Kelly, Cassie Cox, Agnes Kilgannon, Josy Neil, Sarah Holmes, Mary Jenkins, Millie Kohout, Constance Crawford, Bessie Belle, Dorothy Bradford, Victoria Joy, Enis (Continued on page 5.)

Superb Favorite
— RANGE —

The Superb Favorite is one of the handsomest as well as best constructed ranges on the market to-day. Full nickel-plated, with tile back, the range would be an ornament to a drawing room.

And, then, its cooking and heating qualities are unsurpassed. Fitted with warming closet, duplex grate, and all the necessary essentials and conveniences to make cooking a pleasure.

The Superb Favorite range is made of the best material throughout, everything that goes into its composition being thoroughly tested and every range turned out from the foundry as near perfect as human skill can make them.

The Rochester Boiler

The very latest idea in a Wash Boiler, something that will lessen the housewife's burden and make the weekly wash a pleasure.

We have ordered a large quantity of these boilers from the manufacturers, knowing that once used they will be fully appreciated and that the demand will be great.

Call and see them.

If You are Not Satisfied Tell Us

NEW MACHINE SHOP

Being Constructed by the International Company

Work started Monday morning on the new machine shops, to replace the ones destroyed by fire on the 12th of November last, for the International Coal & Coke company. The new building will be of concrete, 35x32 inside dimensions, with an eil 35x32. The walls and foundation will be of concrete, with steel roof trusses covered with corrugated iron, making the building thoroughly fireproof.

In addition to the machinery in the old shop, there will be installed a punching and shearing machine, a planer and plate rolls. The machinery will be driven by a 15 horsepower electric motor. The shop will contain machine, carpenter and blacksmith shops, each being perfectly equipped. Ground was cleared Tuesday for the erection of locomotive sheds, 36x53 inside dimensions. This building will contain four tracks and accommodate 12 locomotives. It will be of concrete, with corrugated iron roof.

E. Disney has the contract for the carpenter work and E. J. Marino the concrete work. The buildings will be rushed to completion as speedily as possible.

Grape Juice and Peachblow

Half a dozen men were up before Inspector Belcher on Wednesday night to answer a charge of feloniously appropriating and drinking 120 bottles of grape juice and peachblow, the property of W. L. Bridgeford. The "soft" drinks were part of a consignment which should have been delivered to W. L. Bridgeford last week, but by some oversight the barrel was left in the car which was later switched on to the McGillivray siding. The men found the barrel, broached it and drank the contents. The case was withdrawn by Mr. Bridgeford on the guilty ones promising to pay for the liquid refreshments and the costs.

Coleman Liberals Win Again

A whist contest was held at St. Alban's Institute, Wednesday night, between teams composed of Liberals and Socialists. The turnout was small, owing to many players being otherwise engaged, but once it was drummed up to make four tables. When time was called and the scores tallied it was found that the Liberals had vanquished their opponents by a score of 68 to 61. Hot coffee was served to the weary players after their strenuous exertions.

MINE RESCUE CAR

NOW STATIONED AT COLEMAN

Will be Moved to Different Points in the Pass for Demonstration

The mine rescue car, the only one owned by the government and the only rescue car in Canada west of Nova Scotia, came up from Blairmore yesterday afternoon and was shunted on the Calgary Brewing company's spur track. The car is a handomely fitted up, contains six berths, superintendent's office, kitchen, toilet, wash and bath rooms.

The car is equipped with eleven large rescue apparatus of the Proto type and six of the Salvator type. The Proto is known as the two hour apparatus, but is in reality good for four hours. The Salvator, good for one hour, will be used principally for conveying entombed men out of the mines. Two thousand feet of oxygen is kept in storage cylinders, containing 100 cubic feet each, under a pressure of 1,800 psi and to the square inch. Twelve electric lamps of eight candle power each it transforms night into day. Four thousand pounds of caustic soda and two pumps for charging the small cylinders are part of the equipment.

Two palmotors, one of the most modern and valuable acquisitions to the work of mine rescue, occupy a prominent place among the apparatus. Practical tests of these machines have given most valuable results. In a recent case in Lethbridge the palmotor was used on two men overcome by gas for 12 hours. In one case the man was revived in 20 minutes, although it took four days in the other case, but both men were brought around, although it is attending physician stated both cases would have been shortly be for the palmotor.

The car is thoroughly up to date in all its appointments, equipment, material and supplies to keep a team in the mines for over a week. It is self-contained in every way.

The writer was given to understand that a gasoline engine and electric motor were on the way and will shortly be installed in the car to be used principally for lighting and recharging the batteries. The car will be lighted with twenty tungsten lamps of eight candle power.

Coleman has the honor of being the first camp chosen for demonstration (Continued on page 5)

THAT BUSINESS TAX

(Continued from page 1)
oil of the town of Coleman apply to Minister of Municipalities for permission to impose a tax to be known as the business tax.

A vote being taken, the motion was declared lost. Councillors Gate, Holmes and Swann voting "aye," Councillors Goodeve, Neil and the Mayor "nay."

The sole reason for turning down the proposition was the lateness of the hour when it was introduced along with the fact that necessary statistics should be sent along with the petition and it would require considerable time to prepare them.

Council adjourned.

Wanted—One large, or two small complete furnished rooms for light housekeeping. Apply at this office.

NOTICE

Notice is hereby given that all ashes and other refuse must be removed from the premises of every resident of the town of Coleman, to the refuse ground, on or before the 16th day of May, 1913, or proceedings will be taken.

By order of Health Board.
A. E. PORTER, M.D.,
Board of Health Officer.
